

Real Estate Market Review

Sacramento Industrial

The industrial real estate market in the greater Sacramento area ended 2017 with a great quarter. NNN overall lease rates rise year after year to a record high of \$0.47 since 2013 while vacancy tightens its grip on the market. 2017 saw a 25.88% decrease in vacancy by the strength of 5,001,884 square feet in positive net absorption. With vacancy dropping to 6.3%, and availability at 5.6% developers try to keep up with warehouse and distribution space in demand. Anticipating more lease rate increases, investors continue to bet on Sacramento for the industrial supply and demand.

The Sacramento industrial real estate market witnessed 1,846,000 square feet of positive net absorption in the fourth quarter, making it the third consecutive quarter of an increase of positive net absorption. Natomas/Northgate submarket exceeded 1 million square feet of positive net absorption; over 900,000 square feet more than reported in the third quarter.

Backed with a positive net absorption of 1,846,000 square feet, warehouse and distribution space continues to dwindle in greater Sacramento area dropping vacancy

to a marketwide average of 6.3%; the lowest vacancy rate the market has seen in 12 consecutive quarters. With record low vacancies, new construction deliveries will likely be fully leased prior to completion.

There were 149 lease deals during the fourth quarter totaling 1,188,090 square feet in the greater Sacramento area; the majority being direct leases as there is minimal sublease space available. While the Natomas/Northgate submarket reported the most leasing activity in the fourth quarter at 263,431 square feet, Rogers Family Coffee leased 85,500
